Scale How,
Ambleside.

June 16 - 1919

Dear Mr. Hornsby

What a generous tribute & how

good of you. many thanks.

It would be well to spread the
knowledge of our principles (as you suggest)
but - I hope "The Board" will not consider that

pettle too simple & narrow. Many persons
have followed the practice ever since the world
was, but not with general success because
they have not been guided by the principles.

Anyway your valuable letter should
suggest that there are principles & a method
which result in education.

We still think & speak of your pleasant
visit - a thing to be repeated.
With kindest regards & remembrance
Yours truly
Charles W. Mason
